Novated Leasing

Upgrade to a new, ex-demo or used dealership car with a novated lease, helping you save while maximising your tax savings. *

What Are the Benefits of Novated Leasing?

Running Cost Savings

Novated leasing includes the cost of fuel, registration, maintenance and other ongoing costs, covered by the pre-tax deductions from your pay.

Pay Less Tax

Accessing your pre-tax salary to lease your car means you pay less tax on your remaining income, meaning more money in your pocket.

GST Savings

Save on GST when you purchase the car, plus the GST on your lease and running costs can be claimed by your employer and passed on, saving you thousands during the lease period.

How Does It Work?

Novated leasing is a financing arrangement approved by the Australian Tax Office (ATO) where your loan repayments and ongoing costs are calculated using a mix of your pre-tax and post-tax salary to maximise tax savings.

Put simply, you use your pre-tax income to lease the car, so you pay less tax on your remaining income.

Through CBB you can access a novated lease on top of your salary packaging for more tax savings.

A novated lease gives you access to fleet pricing with GST excluded from the lease calculations so you save thousands of dollars upfront.

Example: your annual salary is \$60,000, you purchase a \$30,000 car, and your estimated kms p.a. is 20,000km.

A 5-year novated lease can save over \$5,000 on the car and running costs, plus you continue to benefit from salary packaging during the lease term.

Things You Should Know

You can access a novated lease in addition to your annual salary packaging limit for more tax savings.

Novated leases cover eligible running costs and vehicle accessories, so they are cheaper than if you paid for them with your after-tax pay. These may include:

Registration.

Maintenance.

Fuel.

Servicing.

Repairs.

Towbars.

Roadside Assistance.

Roof racks.

Tyres.

Floor mats.

Insurance.

Window tinting.
