

Electronic device packaging

Save money on your next purchase

Electronic device packaging

You can salary package the following electronic devices if they are used for work-related purposes:

- ▶ Laptops
- ▶ Phones and tablets
- ▶ Portable printers

This benefit is on top of your standard salary packaging limit, enabling you to save even more tax each year.

How does it work?

Either pre-purchase your device (outright) or pre-save each pay period until you have reached the purchase price.

You are limited to one claim for each type of device per FBT year.

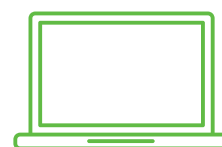

Visit our website to download the forms or call **1300 763 505** to find out more.

How do I get started?

To take advantage of this fantastic benefit or to find out more, call CBB on **1300 763 505**.

Please note: Electronic device packaging is subject to your organisation's salary packaging policy. Fees and charges may apply.
